

**MANUFACTURER OF
ELECTRIC CONTROL & AUTOMATION PANELS**

ABOUT US

Elephant electric power solutions was founded in 2019, after acquiring 5 years of experience in the electrical control panel manufacturing industry, we specialize in delivering innovative and reliable control panel systems designed to meet the unique needs of industrial and commercial sectors

Today, EEPS is one of the leading company for complete electrical solutions in the industrial sectors by providing end to end solutions for their clients. i.e., from Planning, Designing, Manufacturing, Supply, Erection, Commissioning and Testing at site as per the customer requirement. The EEPL majorly works in all type of industries such as RICE, DISTILLERIES, COTTON, DHAL, STONE CRUSHERS, SUGAR PLANTS, PELLET PLANTS, MINERALS etc.

Beginning with the manufacturing of control panels, we have steadily evolved with “TIME and TECHNOLOGY” and have significantly expanded our operations. Today Elephant Electric Power Solutions has separate well equipped setup for sheet metal work, powder coating, assembly, wiring and testing section with the expertise engineering team. EEPL believes in co-operation, the company continuous investment on Research and Development on existing products and new range of products as per customer requirement. In result we manufacture and export complete range of LT Panels with process automation and Machine automation.

OUR VISION

To be a supplier and partner of choice for Power, Control and Automation Panels:

OUR MISSION

To exceed our customer's expectations in quality, delivery and value for money through continuous improvement.

WHAT WE DO?

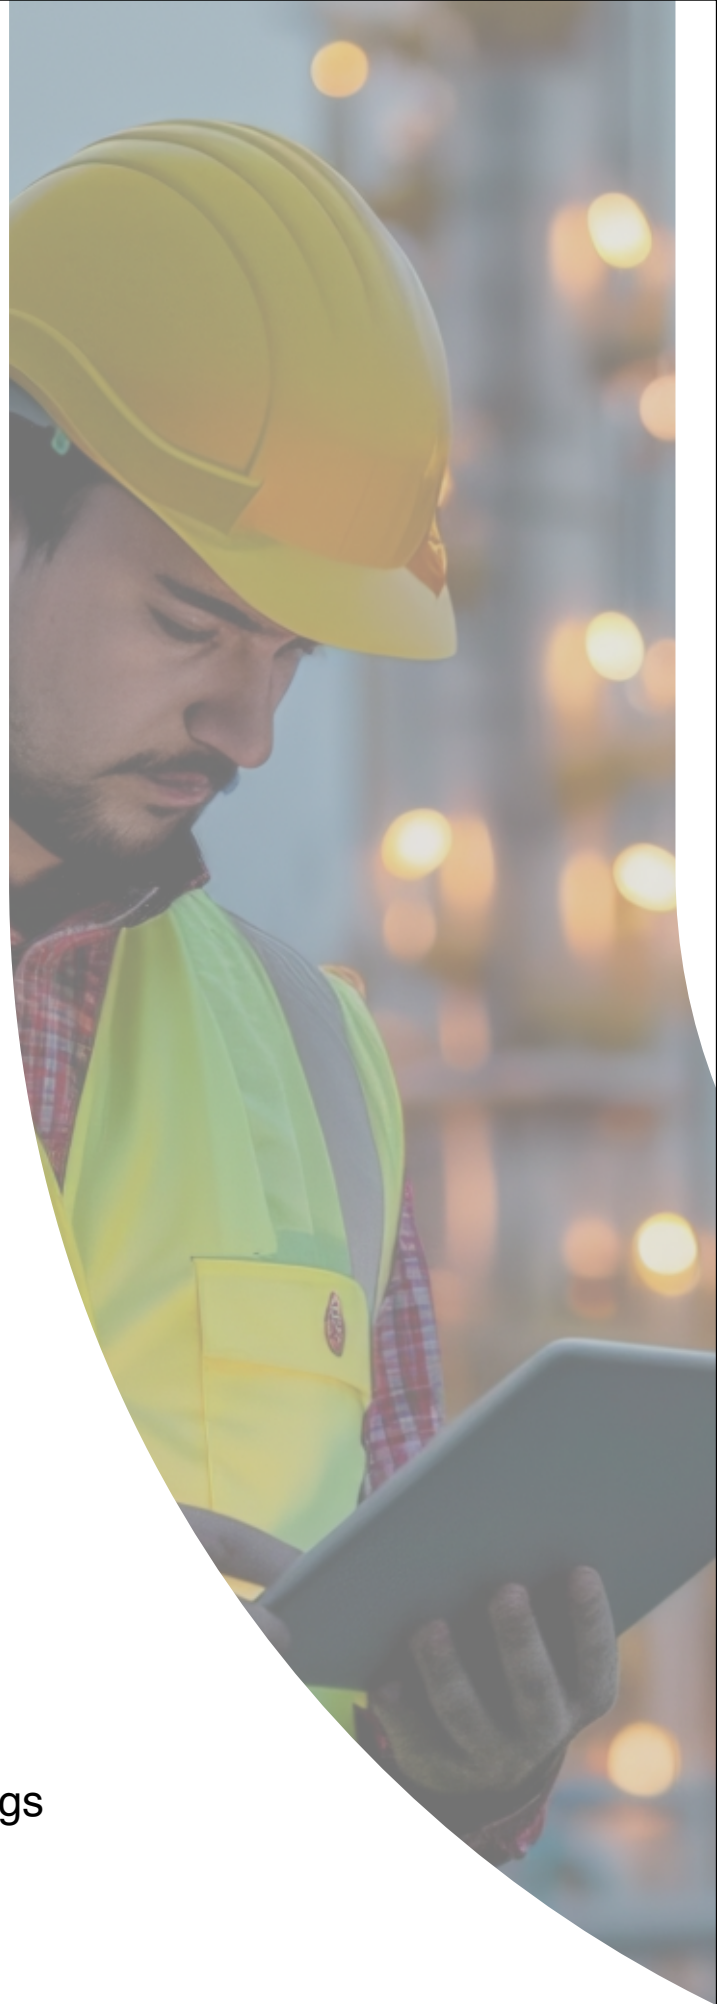

Elephant Electric Power Solutions has created a niche for itself in the field of Power Solutions.

We have the track record of client's confidence for our professional approach and timely completion of the quality product.

We have a complete quality control system in place and strictly adhere to internal quality control standards. Our dedicated & experienced staff members as well as engineers monitor the entire production process & ensure that all final products meet the expectations of clients.

We have fully equipped testing facilities like high voltage tests and other electric tests. We use state of the art EPLAN & AutoCAD platform for entire stage of design & development.

Elephant Electric Power Solutions brings to its clients an in-depth knowledge of the available products and techniques together with cost effective solutions to today's energy conservation problems.

Elephant Electric Power Solutions provides a comprehensive range industrial services including designing, manufacturing of control panels and many more technological solutions to the industrial house all over India and abroad.

These dedicated services are designed to meet the demanding requirements of number of industries and sectors, including power generation and general process engineering applications through long experience working within these sectors. Our products are manufactured to suit the regulatory norms of the local regulatory authority as per the customer specific requirement.

Elephant Electric Power Solutions specializes in the designing and execution of large industrial electrical power supply panels as well as Rice Milling Industry and Ethanol Industry in last some years also working in Hydro / Thermal / Co-Generation / Gas / Biomass / Solar Power Wind Power / Sugar / Steel / Cement / Water Supply & Lift Irrigation Projects etc. We provide complete turnkey solutions to all our clients.

VALUE ADDITIONS

The industrial Development and prosperity of every Nation Depends on the amount of energy consumed and the availability of energy for further development. The increased demand will cause concern on the limited energy sources available. It is therefore necessary to make efficient utilization of whatever energy available and avoid wastage.

Team Elephant Electric is committed to deliver the best design and the right option for the selection of Electrical Instrumentation and Installations taking into consideration the choice of cables, Bus Bars, Connections, Isolators, Circuit Breakers, SFU's and all major Switch gears that directly or indirectly contribute to the safe and secure operation of any industry thus keeping the work place accident free from the hazards and help in time and energy conservation.

OUR STRENGTHS

- ✓ IEC CERTIFICATE
- ✓ CPRI CERTIFICATE FOR SHORT CIRCUIT-65 KA/1sec.
- ✓ ERDA CERTIFICATE FOR PROTECTION CLASS - IP 55.
- ✓ ISO 9001: 2015
- ✓ ON-SITE FAST SERVICE RESPONSE IN THE INDUSTRY
- ✓ 24X7 CONSULTATION SERVICE

SOLUTIONS FOR INDUSTRIES

GRAIN PROCESSING

RICE MILLING

ETHANOL INDUSTRY

CEMENT INDUSTRY

INFRASTRUCTURE

PHARMACEUTICALS

TEXTILE INDUSTRY

HYDEL POWER PLANT

STEEL PLANT

WIND TURBINE

POWER DISTRIBUTION

PAPER INDUSTRY

- Electrical Turnkey Projects
- Industrial Projects
- Commercial Projects
- Residential Projects

OUR CLIENTS

KMC

Rice Industries

“ We pride ourselves on delivering high-quality products and exceptional service. Our clients' success is our success, and we are dedicated to continuing our journey of innovation and excellence. Join our family of satisfied clients and experience the Elephant Electric difference today! ”

PRODUCTS

Our manufacturing range covers following Electrical Panels:

- LT Power Panels
- PCC (Power & Control Centre) Panel
- MCC (Motor Control Centre) Panel
- APFC Panel
- Fire Fighting Panel
- Metering Panel
- Circuit Breaker Panel
- Control Metering & Protection Panel
- Synchronizing Panel
- PLC (Programmable Logic Controller) Panel
- SCADA (Supervisory Control & Data Acquisition)
- ATS Panel
- Transformer Breaker Panel (LT Kiosk)
- Lighting distribution Panel
- DG AMF Panel etc..
